Education

University of South Carolina - Columbia

Location: Columbia, SC

Expected Graduation: May, 2029

Major: Bachelor of Science in Computer Information Systems

Minor: Business Information Management

Specialization/Concentration: Artificial Intelligence

GPA: 4.0

Relevant Experience

Technical Projects

- Developed an interactive to-do list application using **HTML**, **CSS**, and **JavaScript**.
- Designed a clean, responsive **front-end interface** for creating and organizing task categories.
- Implemented **dynamic functionality** with JavaScript to add, remove, and manage tasks within each category.
- Enabled **task completion tracking** through check/uncheck functionality and item removal options.
- Applied **modular and maintainable code structure** for scalability and ease of feature expansion.

Leadership & Academic Experience

- Joined **DECA (Distributive Education Clubs of America)** and competed under the Hospitality and Management specialization with over 20 practice roleplay interviews given and 2 podium finishes in a single year of participating.
- **Coursework:** General Application Programming, Algorithmic Design, Computing in the Modern World and Webdesign *(additional coursework in Computer Information Systems in progress)*.

Skills

- **Programming Languages:** HTML, CSS with Foundational Knowledge involving Java and Python.
- **Foreign Languages:** English, Spanish, Telugu and Hindi.
- **Applications/Tools:** Microsoft Office, Google G Suite Applications, Zoom, Adobe Photoshop, Adobe Premiere Pro, Eclipse and Visual Studio Code.
